

Thanks for purchasing this Engl Savage 120METAL PACK!  
Amp: ENGL SAVAGE 120 (EH 6550 poweramp tubes and JJ preamp tubes)

This pack contains 12 profiles

3 Gain Levels

2 Mics

2 Mic Position

.....

**Mics:**

Sennheiser e609

Shure SM57

**Mic positions**

C- Center Position

B – Between Dustcap and cone

**Gain Levels:**

G1-Low Gain (Gain at noon)

G2-Medium Gain (Gain at 1.30)

G3-Hi Gain (Gain at 3 oclock)

*Example:*

*JE-SAVAGE-SM57C-G2*

*Mic: SM57, Center position, medium Gain*

*Note: These profiles were created for active pickups (SD Blackouts) and my own style of playing  
you can tweak and play around your Kemper to get your best tone.*

*TIP: Kempers INPUT (Clean Sense and Distortion Sense) and OUTPUT may differ in different software  
versions and of course in your guitar pickups output level. Adjust until you get your right level.*

Hope you enjoy this pack
